

DAVID HARDIMAN QUANTUM AND DELAY LEAD

HKA's new partner David Hardiman has over 40 years' experience in contractual claims, claims valuation and dispute resolution with significant experience in domestic and international litigation and arbitration. He has testified as a quantum expert on numerous occasions and in various jurisdictions on matters including termination valuation, audit final account, re-measurement interpretation and loss and expense claims.

He has led large claims management teams and carried out a broad range of commercial functions for both employers and contractors and in so doing delivered effective multi-disciplinary solutions for clients on some of the world's largest construction projects.

David is a Fellow of the Royal Institution of Chartered Surveyors and joins us as an established business leader in Australasia.

HKA is one of the world's largest privately owned providers of expert, consultant and advisory services. We provide solutions amid uncertainty dispute and overrun and the insight to deliver the best possible outcomes for both public and private sector clients.

The firm has a long and enviable track record of working for the world's largest law firms on many of the most complex mega-projects in transportation, infrastructure, buildings, manufacturing, power, utilities and resources sectors.

Our expert services comprise the four complementary streams of Quantum, Engineering, Delay and Forensic Accounting and Commercial Damages. We call this combined capability QED+ and clients have the opportunity to build multi-expert teams from our unique single source.

QED+

Our quantum and delay teams have a reputation for being effective and for attention to detail, objectivity, rigorous forensic analysis and clear and concise explanation of complex analysis.

Our Forensic Technical Services team (formerly Engineering) has a worldwide pool of over 400 engineering experts in the building, infrastructure, energy, resources and industrial sectors.

The FACD team assists construction and non-construction clients in providing expert services in relation to economic damages, business valuation and intellectual property. The team also assists clients in undertaking fraud and forensic investigations.
